Clean Hands - Save Lives

saniport *lite*

Saniport *lite* is a basic, yet fully loaded version is our range of standalone sanitising stations for humans.

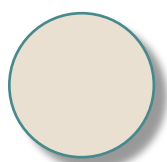

It is manual operated, provided with hand sanitiser dispenser, tissue paper holder, dustbins and a place for instruction signage at top.

It is easy to install and use to provide maximum protection to your staff and customers. The tissue paper dispenser is minimal and so brings in lot of ease in refilling and cleaning. The dustbin cleverly placed beneath the disinfectant dispenser avoid any spill over and keeps it clean look intact.

The elegant model has minimal design and available in three colour shades in matt finish powdercoating for sophisticated aesthetics. This makes it a unique combination of hygiene and beauty.

Advantages

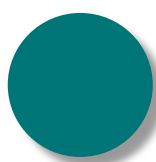

- No complex systems for using, so customers can easily and Independently handle.
- Powdercoated mild steel fabrication assembly for much longer life compared to wood or plastic, and can handle rough usage better.
- Refills can be done easily from front side itself.
- Smart design with low maintenance.
- Provisions for branding and signage.
- Cost effective.
- Occupies very less space and can be moved whenever required.
